

HELPING TO SHAPE OUR REGION'S FUTURE

What is Imagine Greater Tucson

Imagine Greater Tucson is a community-based effort bringing together citizens, businesses, organizations and regional leaders to share values and work together to create a common vision and action plan for the future of the greater Tucson region.

Shaping our future together

Why Now

Over the next several decades, our population is expected to double in size; we must think ahead and proactively influence the changes ahead so we don't lose what we most value about our region! Imagine Greater Tucson needs your help to make our community a vibrant and healthy place to live, work, learn and play for future generations.

How is Imagine Greater Tucson different from prior visioning/planning efforts

Imagine Greater Tucson is more than a visioning effort. Through broad-based public involvement, IGT will identify common community values in the region, build and select a preferred scenario to shape our future through action-oriented strategies that will lead to results. This process will build upon existing regional plans. Most importantly, YOU will help identify regional priorities and define the strategies to address regional issues and opportunities.

How will the public be engaged during this process

- Phase 1 – Identifying common values
- Phase 2 – Developing future scenarios
- Phase 3 – Agreeing on a plan of action

How is Imagine Greater Tucson funded

Imagine Greater Tucson is funded through a diverse array of private, public and non-profit sources. This shared funding model will encourage participation from all sectors of the community. Imagine Greater Tucson will continue to seek public and private sector contributions throughout the process.

How Can You Get Involved

Imagine Greater Tucson is only as powerful as the momentum it can build, and that starts with you. Visit www.imaginegreatertucson.org and sign up to participate in a Community Conversation near you, take an online survey, assist Imagine Greater Tucson at various events, or to help host meetings and share information about the IGT effort.
